UK Decarbonisation

ARTICLES FROM ENERGY LIVE NEWS

Quorn Foods hopes to see healthy carbon savings following the installation of a combined heat and power (CHP) plant. See link: <http://www.energylivenews.com/2017/06/14/quorn-hopes-for-healthy-carbon-savings>

UK Decarbonisation:

A new platform aims to bring the UK's energy industry together and improve the transition to a low cost and low carbon system.

Led by the Carbon Trust, the Energy Systems Innovation Platform's (ESIP) partners will collaboratively develop solutions to barriers currently deterring investment in flexibility solutions, such as energy storage.

These partners include Centrica, DONG Energy, SSE, Scottish Power, Statoil and Wood Group – companies that together represent almost half of the electricity supply market in the UK.

Follow @Mr_Kills_Bills for the latest news

Jonathan Moffitt @Mr_Kills_Bills - Jun 29
Spotted that supplier had billed the same water supply under two different accounts (i.e. double charging). #globsbiz #ginbizz

Jonathan Moffitt @Mr_Kills_Bills - Jun 23
Confirmed two telecoms rebates for a client yesterday. #globsbiz

Jonathan Moffitt @Mr_Kills_Bills - Jun 15
I got a quote from an incumbent water supplier for a smaller client and the discount offered was 0.7% off retail rates for a 3 year contract.

Jonathan Moffitt @Mr_Kills_Bills - Jun 7
Saw client's first electricity bill and it showed overcharging on available capacity. Contacted supplier at once. #globsbiz

ESOS (Energy Savings Opportunity Scheme)

IS YOUR COMPANY ESOS COMPLIANT? START PLANNING FOR THE SECOND COMPLIANCE PERIOD. THE QUALIFICATION DATE IS 31ST DECEMBER 2018.

According to the Environment Agency's latest information, some 6,800 organisations were ESOS compliant as of 31 January 2017. A new compliance period starts every four years. The qualification date for the second period is 31st December 2018, with proof of compliance being required by 5th December 2019. Non-compliance can lead to enforcement action and substantial financial penalties.

To check if your business qualifies for this and find out how to carry out an assessment, see the Environment Agency's guide on this link: https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/509835/LIT_10094.pdf

Inenco issued a blog the day after the election considering what effect a Hung Parliament would have on the Energy Industry.

See link: https://www.inenco.com/what-does-a-hung-parliament-mean-for-the-uk-energy-industry/?dm_i=1U6I,500F2,FW84P5,J1RGR,1

GET THE RIGHT CONTRACT BEFORE YOU MOVE INTO NEW BUSINESS PREMISES

When a new tenant or owner moves in, energy contracts revert to high out-of-contract rates. If you are looking to move, then ask the current landlord or their agent for a recent bill. You can then report the change in advance and arrange a more favourable contract rate. It is also essential to provide a meter reading on or close to the transfer date. A stress-free way to do this and to ensure you get the best contract rate, is to use the services of an expert to handle these matters for you - such as Mr. Moffitt!

SPACE BASED SOLAR POWER?

Energy Live News have reported that the solar panels of the future could harness the sun's energy directly from space.

See link: <http://www.energylivenews.com/2017/06/14/space-based-solar-china-starts-to-planet/>
