

AWEBB Indirect Framework

Gas & Electricity

Auditel's specialist Energy division was established in 2000, and the team now have over 130 years of combined experience in dealing with all Commercial Energy related issues and opportunities. Delivering a first class, fully independent Consultancy service with constant support and regular reporting they're able to professionally handle all your renewal, billing, and supply issues.

Your dedicated account manager will have access to Auditel's bespoke Client Management System ensuring all your Gas and Electricity needs are met, on time and at the best terms the market has to offer. In some cases, the direct relationship between customers and suppliers is strained or damaged. Confusing contracts and pushy sales tactics have eroded trust in some cases. We can review your current costs, supplier contracts, renegotiate terms and, where appropriate – propose new equipment solutions or suppliers to save you time and resource, as well as money.

Benefits to AWEBB Members:

- Unlimited ongoing energy advice and support
- Access to the whole of the market, 100% supplier independence
- Dedicated account manager to handle all your energy related matters
- Get time back for our business yet retain control of this key overhead
- Monthly reporting included plus annual/bi-annual reviews

Services Available:

- Full supply contract management
- Supplier billing error identification/resolution
- Meter install and removal
- Meter upgrade and MOP contracts
- Bespoke reporting facility
- ESOS audit and reporting

Next Step

If you would be interested in discussing your energy requirements further then please contact Chris Almond direct on:
