

AWEBB Indirect Framework

Vehicle Leasing & Fleet Management

Small to medium sized enterprises (SMEs) rarely have the luxury of employing a full-time fleet manager. Finding a fleet management specialist that they can rely on, and form a close working relationship with, is therefore critical.

As an outsourced Fleet Management company, cbvc will run your fleet for you. From acquisition, through the contractual life to disposal. They will liaise directly with your drivers and ensure they, and their vehicle are kept on the road.

CBVC offer a multi-bid financing proposition obtaining the best lease rates for clients from 6 of the 10 UK leasing companies. Thus ensuring consistently competitive prices on car and van leases and contract hire agreements.

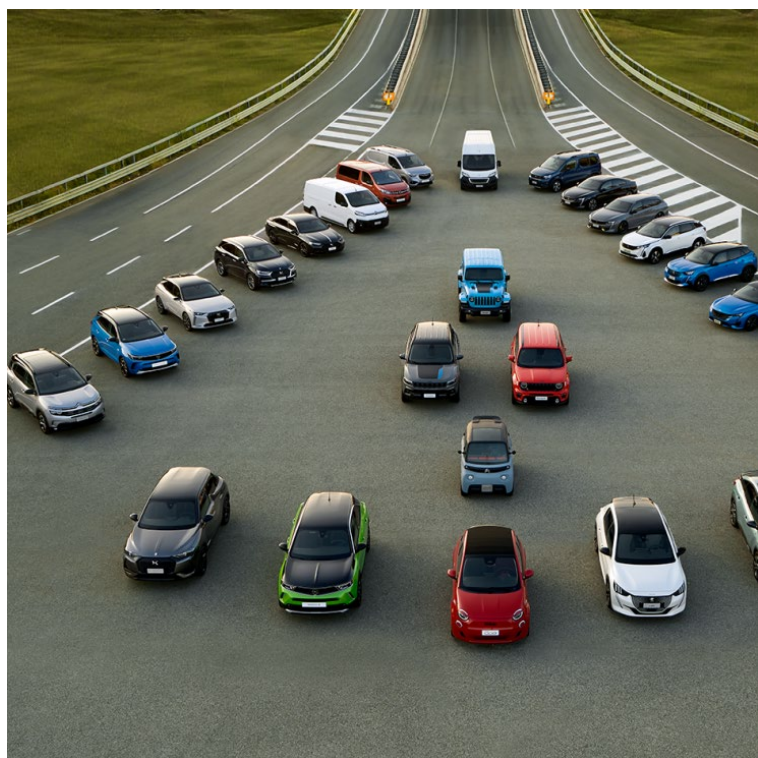

Valuing the personal relationship they have with their drivers, means they are always here to help with any issues you may have.

Solutions for AWEBB Members:

- AWEBB Portal
- Fleet & Downtime Management
- Key Account Manager
- Management Reporting
